Billing policy & fee information

From 2 November 2026

Doctors practicing at Ochre are independent practitioners and they bill privately. This means patients will be charged a fee that is higher than the Medicare rebate for their consultation, in other words the Medicare rebate patients receive after paying their bill will only cover part of the total cost. These billing arrangements apply to both face-to-face and telehealth (video and phone) consultations.

Consultation type	Consultation fee	Medicare rebate	Out of pocket
Brief	$62.00	$20.55	$47.95
Standard	$113.00	$45.05	$74.45
Long	$189.00	$87.10	$108.40
Prolonged	$256.00	$128.35	$134.15

Fee information & payments

Fees are payable at the time of your consultation.

We have systems in place for our friendly team to process your Medicare rebate claims on the spot.

Additional treatment room usage fees

Patients who need to visit our treatment room may be charged a fee for the services they receive in addition to their consultation fee. This fee covers the care provided by our nurses, including dressings, wound care and other procedures.

Other services

Other services like procedures, tests and vaccinations may incur additional costs. You will be informed of these in advance.

Worker compensation, insurance and occupational health

We do not bill WorkCover directly unless you have a letter accepting your claim that includes a claim number and billing information. If you do not have such a letter, we will bill you as normal and you will need to seek reimbursement from your employer or WorkCover.

Cancellation policy

If you are unable to attend your appointment, please contact us to reschedule or cancel. A non attendance fee of $110.00 will be charged for appointments cancelled within 2 hours of appointment or fails to attend. Please note that this fee is not eligible for the Medicare rebate.
